Monthly Report from CDPHE to the North Front Range Transportation and Air Quality Planning Council

October 4, 2018

The Air Quality Control Commission:

- The Commission did not meet in September.
- The Commission will hold a joint meeting with the Board of Health on October 18-19, 2018. Agenda items include:
  - Review of the 2018 ozone season.
  - The Commission’s annual report to the public.
  - Regulation 3 rulemaking hearing to consider revisions to Air Pollutant Emission Notices, permit processing, and fees.
  - Regulation 9 briefing to provide an annual update on the Smoke Management Program and wildfire smoke impacts.
  - Regulation Number 12, Part B rulemaking hearing to consider revisions to diesel emissions inspector licensing and inspector training and qualification revisions.

The Air Pollution Control Division:

- The 30 day public comment period for the Mitigation Plan for Stratospheric Ozone Intrusion and Wildfire Events Involving Ozone in the Denver Metro/North Front Range Ozone Nonattainment Area closed on September 14, 2018. The Division received no comments and the final version of the plan was submitted to EPA on September 27, 2018, per the Revised Exceptional Events Rule requirements. The plan is available on the Division’s Technical Documents website at: [https://www.colorado.gov/airquality/tech_doc_repository.aspx](https://www.colorado.gov/airquality/tech_doc_repository.aspx).
- We have not seen any very high ozone values since the August update. As mentioned in the previous update, there is a possibility that the Denver Metro/North Front Range area may be reclassified as a “serious” ozone nonattainment area in approximately January 2020. The Division is still evaluating options on how to proceed this fall/winter.
- The Division’s Small Business Assistance Program (SBAP) has developed a cannabis environmental outreach program to provide information on how to reduce environmental impacts. The program recently received a grant to conduct a research study on VOC emissions throughout cannabis cultivation and harvesting processes. There are currently 1,450 cannabis cultivation facilities in Colorado. Of those, 700 are within the ozone nonattainment area.
Approximately 100 samples will be collected from 3 facilities over the next year to quantify VOC emissions throughout the cultivation, harvesting, and trimming processes. Visit the SBAP cannabis page for additional information: https://www.colorado.gov/pacific/cdphe/greencannabis.

- The Statewide Oil and Gas Hydrocarbon Emissions Reductions (SHER) team has been meeting monthly to discuss and develop potential hydrocarbon emission reduction strategies for industry. Details about an upcoming public meeting will be posted on the SHER website in the near future: https://www.colorado.gov/pacific/cdphe/oil-and-gas-hydrocarbon-emissions. Recommendations for strategies are not due to the Commission until January 2020, but an update will provided to the Commission in January 2019. Contact Leah Martland at 303-692-6269, leah.martland@state.co.us for additional information.

- In November 2017, the Commission directed the Division to lead a study concerning pneumatic controllers in the ozone nonattainment area. The Division established a task force in January 2018 comprised of 9 oil and gas companies and a number of environmental and local government stakeholders. From May to September, the oil and gas companies collected information on malfunctioning pneumatic controllers from over 150 well production facilities. The Division will begin reviewing this data in the next few months. The results of the study will be presented at a Commission meeting in Spring 2019.

- Chris Colclasure left the Division in September. Dena Wojtach is the interim manager of the Planning and Policy Program and Mark McMillan is the current Deputy Director.
RAQC MEMBERS PRESENT:
Andy Spielman, Chairman, WilmerHale
Kathleen Bracke, City of Boulder
Bob Broom, Citizen
Frank Bruno, Via Mobility Services, via phone
Julie Cozad, North Front Range MPO
Gerry Horak, City of Fort Collins
Jack Ihle, Xcel Energy
Vanessa Mazal, National Parks Conservation Association
John Putnam, Kaplan, Kirsch, & Rockwell, LLP
Doug Rex, Denver Regional Council of Governments
Bob Roth, City of Aurora
Jep Seman, Corporate Advocates
Gregg Thomas, Denver Department of Environmental Health
Casey Tighe, Jefferson County
Bruce White, Citizen

RAQC MEMBERS NOT PRESENT:
Herb Atchison, City of Westminster
Paolo Diaz, City of Commerce City
David Genova, Regional Transportation District
Irv Halter Jr., Colorado Department of Local Affairs
Elise Jones, Boulder County
Michael Lewis, Colorado Department of Transportation
Jackie Millet, City of Lone Tree
Brian Payer, Sphera
Scott Prestidge, COGA
Larry Wolk, Colorado Department of Public Health and Environment

RAQC ALTERNATES PRESENT:
Elizabeth Garner, Colorado Department of Local Affairs
Martha Rudolph, Colorado Department of Public Health and Environment
Debra Perkins-Smith, Colorado Department of Transportation
Bill Van Meter, Regional Transportation District

RAQC STAFF PRESENT:
Mike Silverstein, Kaylyn Bopp, Amanda Brimmer, Matt Goble, Sara Goodwin, Kelley Grubbs, Misty Howell, Steve McCannon, and Matt Mines.

OTHERS PRESENT:
Bruce Allred, Suncor; Cassie Archuleta, City of Fort Collins; Jim Brandon, ESP; Chris Colclasure, APCD; abby Fulton, EPA; Doug Lempke, Tri-State; Jim Martin, Beatty & Wazniack; Trisha Oeth, CDPHE; Mike Pollis, Colorado Petroleum Association; Sandy Spon, Citizen; Robert Spotts, DRCOG; Curt Taipale, APCD; Collin Tomb, Boulder County Public Health; Matt Tribby, PRPA; Chris Wood, PRPA; and Mark Zeigler, Clean the Air.
The meeting was called to order at 9:38 a.m. by Chair Putnam. A quorum was present.

**Approval of Agenda**

Board Member Perkins-Smith moved to approve the agenda. Seconded by Board Member Thomas. Motion passed without objection.

**Approval of Minutes**

Board Member Bruno moved to approve the July 27, 2018 minutes. Seconded by Board Member Cozad. Motion passed without objection.

**General Public Comment**

None.

**Informational Items**

*Chair*
Chair Putnam introduced Mike Silverstein and welcomed him to his first meeting as the RAQC Executive Director.

Chair Putnam informed Council that he has agreed to continue on Council for a one-year term as Chair to assist with the transition. Council members with terms that expired in April 2018 can serve on Council until new appointments are made.

*Executive Director*
None.

*Members*
Board Member Ihle informed Council that the PUC has approved Xcel’s plan to early retire two units at the Pueblo Comanche plant and the replacement of the generation with renewables and some natural gas. Board member questions and comments were taken. Chair Putnam suggested that an update on this plan be included on a future agenda and that other power companies be invited to provide their perspectives to the Council.

*Recognition of Andy Spielman’s Service as RAQC Chair*
Council celebrated Andy Spielman’s Service with the RAQC. Chair Putnam and Misty Howell presented him with awards. Steve McCannon shared staffs’ appreciation for his service as Chair.

**Ozone Update**
Sara Goodwin provided the Council with an overview of the Simple Steps Better Air program and measurement metrics. The Council discussed the media buy and approaches to measure behavior change from the program.

Amanda Brimmer presented an overview of the ozone monitoring data and planning efforts, outlining EPA requirements, RAQC work ahead, and specific planning approaches and options.

**Approval of Selection of Contractor for Future Ozone SIP Modeling**

Amanda Brimmer provided Council with a presentation on the ozone modeling needed for preparation of the State Implementation Plan for the 2015 ozone standard. She explained the RFP process used to select a new modeling contractor. She requested that Council approve entering into a contract with Ramboll Environment & Health in the amount of $280,600 for modeling work related to the 2015 ozone standard and 2008 ozone standard if necessary. She also requested approval to add funding to the contract at a later date to fully fund projected ozone modeling/analyses ($412,600).

There was discussion on how the contract would be written so that notices to proceed would be used to fund tasks as funding becomes available. Council also discussed the scoring of the RFP respondents.

*Public Comment:*
Mike Pollis, Colorado Petroleum Association commented about model performance specifications. Amanda Brimmer indicted that model performance is always considered.

**Board Member Seman moved to approve the contract with Ramboll Environment & Health for the full proposed amount of $412,600 using Notices to Proceed to authorize work as funds becomes available. The initial Notice to Proceed will be for $280,600. Seconded by Board Member Cozad. Motion passed without objection.**

**Announcement**

Mike Silverstein informed Council of Noble Energy’s offer to donate office furniture to the RAQC. Council discussed the details of the donation.

**Board Member White moved to accept the donation. Seconded by Board Member Mazal. The motion passed without objection.**

**2017 Audit of Financial Statements**

Postponed until the October meeting.

**Low Emission Vehicle Standard Update**

Mike Silverstein provided Council with an update on the actions of the Air Quality Control Commission regarding low emission vehicle (LEV) standards, which will be considered at a November rulemaking hearing. He also indicated the AQCC will consider a zero emission vehicle (ZEV) mandate proposal in December for a March 2019 hearing.
Council discussed whether party status was necessary. Mike Silverstein suggested that this would not be necessary for the LEV hearing but it would likely be warranted for a ZEV hearing.

Public Comment
None.

Charge Ahead Colorado (CAC) Application Overview

Steve McCannon provided Council with an overview of the Charge Ahead Colorado application process.

Announcements and Action Items

The next meeting will be October 5, 2018. Items to consider for the agenda include commenting on the LEV rulemaking (a draft letter from the Chair will be presented for consideration) and discussing the 2017 audit and current budgeting process.

Adjournment

There being no further business before the Council the meeting was adjourned at 11:59 a.m.
BEFORE THE COLORADO AIR QUALITY CONTROL COMMISSION

IN THE MATTER OF PROPOSED COLORADO
AIR QUALITY CONTROL COMMISSION REGULATION NUMBER 20

APPLICATION FOR LATE PARTY STATUS BY THE
NORTH FRONT RANGE METROPOLITAN PLANNING ORGANIZATION

On August 24, 2018, the Air Quality Control Commission of the State of Colorado ("Commission") issued a Notice of Rulemaking Hearing and therein established the procedural requirements for a party to participate in this rulemaking.

The North Front Range Metropolitan Planning Organization (NFRMPO) respectfully submits this Late Application for Party Status to participate in the prehearing process and hearing in the above-referenced rulemaking.

While the Commission’s Notice of Rulemaking required applications for party status to be submitted by September 17, 2018, the Commission’s Notice also states that requests “received beyond the stated deadline shall . . . be considered upon a written motion for good cause shown.” As support for a showing of good cause, NFRMPO submits the following.

Due to the press of time sensitive matters NFRMPO was engaged in on behalf of its members, NFRMPO inadvertently missed the party status deadline. However, as an involved participant in air quality on RAQC for both Carbon Monoxide and Ozone issues, our members have a keen interest in participating in the prehearing and hearing process, for the above-referenced rulemaking. The proposed rulemaking will impact NFRMPO’s members and the work done by the Council and its members on the RACQ.

NFRMPO agrees to meet all other deadlines outlined in the Notice of Rulemaking from August 24, 2018.

In light of the foregoing and pursuant to the requirements of the Commission’s Order, NFRMPO submits the following information.

1. Name of Applicant:
   Tom Donnelly, NFRMPO Chair
   Larimer County Courthouse
   c/o Commissioners Office
   P.O. Box 1190
   Fort Collins, CO. 80522
The individual noted above should be placed on the service list for this matter.

2. Summary of policy, factual or legal issues the applicant has with the proposed regulations:

At the time of the filing of this Application, NFRMPO has identified the following policy, factual, and legal issues:

1. Whether the Rulemaking is necessary to address significant adverse environmental, public health or safety impacts, and is supported by adequate economic, technical, and scientific evidence;

2. Whether the proposed Rules (and any alternative proposals) are cost-effective; and

3. Whether the proposed Rules (and any alternative proposals) are within the statutory and constitutional authority of the Commission; and

4. Whether the proposed Rules will cause hardship and confusion due to close proximity to bordering States with differing regulations; and

5. Whether there has been adequate vetting on the proposal.

NFRMPO reserves the right to amend, delete, add to, and/or supplement the issues identified herein. NFRMPO respectfully requests the Commission promptly grant its Late Application for Party Status in the above-referenced rulemaking.

DATED this 26th day of September 2018.

Respectfully submitted,

NORTH FRONT RANGE METROPOLITAN PLANNING ORGANIZATION

Tom Donnelly
NFRMPO, Chair
MEMORANDUM—REVISED

To: NFRMPO Planning Council

From: Alex Gordon

Date: October 4, 2018

Re: Transit Asset Management (TAM) Targets

Background
In 2016, the Federal Transit Administration (FTA) published a rule requiring transit agencies receiving Federal transit assistance to create Transit Asset Management (TAM) Plans for assets including vehicles, facilities, equipment, and other infrastructure. TAM Plans are required for all transit agencies, but smaller agencies may join a group TAM Plan. In the NFRMPO region, Transfort elected to draft its own TAM Plan, while City of Loveland Transit (COLT) and VanGo™ elected to join the Statewide TAM Plan.

The NFRMPO worked with CDOT and the three local transit agencies on setting regional targets as required by the Final Rule for TAM. In these discussions, the three agencies decided to keep Transfort and the State’s TAM targets separate and adopt both sets of targets as the regional targets.

The TAM Targets were brought to Planning Council for Discussion as part of the overall 2045 Goals, Objectives, Performance Measures, and Targets (GOPMT) at their August and September 2018 meetings. TAM Targets were also references during the PM2 and PM3 Discussions. Once adopted, NFRMPO staff will submit the signed Resolution and a formal letter to FTA, CDOT, COLT, and Transfort.

Greeley-Evans Transit (GET) was granted a 30-day extension by the FTA to adopt TAM targets after the October 1, 2018 deadline for transit agencies. GET will work with NFRMPO staff to incorporate GET TAM targets into the regional targets.

Action
NFRMPO staff requests Planning Council set TAM targets by supporting the targets established by CDOT and Transfort for TAM.
RESOLUTION NO. 2018-20
OF THE NORTH FRONT RANGE TRANSPORTATION & AIR QUALITY PLANNING COUNCIL TO SET TARGETS BY SUPPORTING THE TARGETS ESTABLISHED BY CDOT AND TRANSPORT FOR TRANSIT ASSET MANAGEMENT (TAM)

WHEREAS, the North Front Range Transportation & Air Quality Planning Council is designated as the Metropolitan Planning Organization (MPO) in cooperation with local elected officials and is authorized to carry out the continuing, cooperative, and comprehensive (“3C”) multimodal transportation planning process as mandated by Congress in Titles 23 and 49 U.S.C.; and

WHEREAS, 23 U.S.C. 150(c) requires the US Department of Transportation (US DOT) to establish national performance measures for safety, infrastructure condition, system performance, freight, and air quality; and

WHEREAS, the Federal Transit Administration (FTA) established regulations (49 CFR Part 625) requiring transit agencies to set targets for four TAM performance measures by January 1, 2017 and annually thereafter; and

WHEREAS, three of the four TAM performance measures are applicable to the North Front Range region; and

WHEREAS, the Metropolitan Transportation Planning and Programming regulations (29 CFR Part 450) require MPOs to set targets and integrate them into updated or amended Regional Transportation Plans (RTPs) and Transportation Improvement Programs (TIPs) adopted after October 1, 2018; and

WHEREAS, CDOT and Transfort each set their TAM targets using a data-driven approach and in collaboration with planning partners as part of their TAM Plans; and

WHEREAS, the City of Loveland (COLT) and VanGo™ elected to join the Statewide TAM Plan and to adopt the associated TAM targets set by CDOT; and

WHEREAS, the City of Greeley (GET) was granted a 30-day extension by the FTA to adopt TAM targets after October 1, 2018 and will work with the NFRMPO to incorporate GET TAM targets into the regional targets; and

WHEREAS, MPOs may set targets by incorporating each provider’s targets or by committing to region-wide targets for the MPO region;

WHEREAS, the Colorado Department of Transportation (CDOT) and Transfort set the following targets for TAM:

<table>
<thead>
<tr>
<th>Measure</th>
<th>Type</th>
<th>Transfort ULB / Target</th>
<th>Statewide Tier II Plan ULB / Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>Percent revenue vehicles meeting or exceeding useful life benchmark (ULB)</td>

</tbody>
</table>
NOW THEREFORE, BE IT RESOLVED, the North Front Range Transportation & Air Quality Planning Council hereby agrees to set targets by supporting the CDOT and Transfort TAM targets and agrees to plan and program projects to contribute toward the accomplishment of the targets.

Passed and adopted at the regular meeting of the North Front Range Transportation & Air Quality Planning Council held this 4th day of October 2018.

Suzette Mallette, Executive Director
2018 Call for Projects Process
Planning Council Action

October 4, 2018

Call Overview

- Open October 9-November 16
- Funding in FY22 and FY23
- Adding a review by CDOT for ITS projects
- Revising scoring criteria
- Requiring CMAQ and STBG projects to contribute to attainment of a federally required PM target
- Prohibiting projects requiring a vehicle Buy America waiver

CMAQ - $9.8M
- CMAQ emissions formulas will be decided by TAC

STBG - $8.4M
- $25,000/year STBG set-aside to RAQC for ozone modeling

TA - $661K
- 82.79% federal share (corrected from 80%)
RAQC Ozone Set-Aside

- $25,000/year STBG set-aside to RAQC for ozone modeling for four years
- 15% population of nonattainment area
- 15% on-road mobile source emissions of nonattainment area
- 15% of STBG set-aside in nonattainment area

Introduction

- Southwest Chief & Front Range Passenger Rail Commission was created by Colorado Senate Bill 17-153.
- The Commission is made up of 11 voting members and three non-voting members.
- The current Commission Chair is Jill Gaebler from PPACG and Vice Chair is Jacob Riger from DRCOG.
### Commission Members

### Commission’s Charge

SB 17-153 directed the Commission to report to the House and Senate Local Government Committees of the Colorado General Assembly by December 1, 2017 regarding proposals for the development of a Front Range passenger rail system.
### Proposed Front Range Passenger Rail Corridor & Connections

#### SOUTHWEST CHIEF AND FRONT RANGE PASSENGER RAIL COMMISSION

**Summary of Key Steps Towards Implementing Front Range Passenger Rail**  
**December 2, 2017**

<table>
<thead>
<tr>
<th>Project Phase</th>
<th>Conceptual Cost</th>
<th>Budget Item Summary</th>
<th>Major Tasks</th>
<th>Outcomes</th>
<th>Timeline</th>
</tr>
</thead>
</table>
| Phase I: Define the Service Vision | $7.5 million | Conduct front range public & stakeholder engagement, prepare service development plan | • Conduct public and stakeholder engagement throughout the Front Range  
(Fort Collins to Pueblo)  
• Prepare corridor alignment plan  
• Prepare service development plan that defines alignment, stops, station locations, service level, technology, and estimates capital and operating costs | • Define mobility needs, who will be served  
• Enhance infrastructure for front range passenger rail  
• Enhance corridor alignment route  
• Define service operating characteristics (weekly, commuter, etc.)  
• Define technology, speed, station spacing  
• Define high-level capital and operating costs | Years 1-3.5 |
| Phase II: Formation of Governing Authority | $6.5 million | Prepare a funding and financing plan, determine governance and operator, form district | • Prepare funding and financing plan for CRPM acquisition, capital construction, debt, and support facilities  
• Determine governance structure and service operator  
• Conduct legal formation and issuance of funding/government district | • Professional staff person to support ongoing commission activities  
• Manage planning/public outreach development processes, and manage consulting team | Year 2.5-4 |
| Phase III: Federal Project Development Process | $150-$300 million | Complete full environmental clearance, federal requirements, and initial designs | • Complete federal environmental clearance process for 350 mile corridor (Environmental Impact Statement and other steps to meet National Environmental Policy Act and other federal requirements)  
• Prepare 30% design plans for the full corridor | | Years 4-6 |
| Phase IV: Final Design & Construction | TBD | Final design and construction of front range passenger rail system | • Current estimated cost for single track, conventional speeds (~200 mph)  
• Current estimated cost for double track, high-speed trains, all-day service ~ $157 million per mile  
• Current estimated cost for double track, high-speed trains, all-day service ~ $250 million per mile  
• Full completion is 2040 (estimated)  
• Costs are only construction costs - do not include ongoing operations & maintenance costs (~$150-$700 million per year)  
• Cost estimates are for current year dollars - cost inflation is approximately 5% per year | | Years 7-15 |

**Phase V: Ribbon Cutting**
Next Steps

• Hire Commission Staff
• Release RFP for Front Range Passenger Rail Stakeholder Engagement and Service Development Plan
• Southwest Chief Service and TIGER Grant Project
• Consolidated Rail Infrastructure and Safety Improvements (CRISI) Grant Program Applications

Applied for grants and received two

- NADTC and FTA 5304 - $25,000 and $56,000, amounts include match from Larimer County
- Grants will get us:
  - Software evaluation and recommendation (NADTC) – completed by January 2019
  - Business Plan for implementation
    - Expect RFP to be released in January, completed December 2019
NFRMPO is administering the grants and project managing the FTA 5304

- NADTC and FTA 5304 - $25,000 and $56,000
- Grants will get us:
  - Software evaluation and recommendation (NADTC)
  - Business Plan for implementation
    - Expect RFP to be released in January
- Will continue to work with partners to secure future funding.
ONE CALL/ONE CLICK

WHAT DOES THIS MEAN GOING FORWARD?

• Potential to expand beyond Larimer County
• Leverage Existing Resources to benefit region
• Interest in a Regional Model?
• Required by CDOT as part of the Regional Transportation Plan (RTP)
• Previous RTE adopted in August 2015
• Same planning horizon as RTP
• Regional vision for transit – build on local efforts
