- Presentation: Colorado Bicycle and Byways Mapping tool –Betsy Jacobson
 - Interactive web mapping application <http://dtdapps.coloradodot.info/bike>
 - Betsy can post bike events email her if you are interested in posting to the page betsy.jacobson@state.co.us
 - Trail Editor allows registered users to update shape files to keep map current. Currently 30 users. Allows local entities to manage their content. Register through web site.
 - Does not have to be roadway related. Can be trail data
 - Based on Google Maps application will provide bike routes and directions turn by turn
 - Search feature allows for search of bike shops, shopping, food, hotels etc.
 - Goal is to help reduce the number of printed maps
- Conference planning: November 5th UNC. Keynote speaker Mark Fenton a nationally known walkability expert from the Boston/Massachusetts area. Committee currently negotiating prices
 - Logo in the works
 - If you have an intern available to work on conference planning please let us know.
- Updates
 - Great Western trail is waiting to hear on their grant application
 - Rail corridor based out of Milliken currently in the works and looking positive
 - Current direction of the Poudre River Trail connection across I25 will be at Harmony
 - City of Evans is taking a look at a South Platte River Corridor Plan-staff is looking at doing a summary of related plans in house and hope to address a regional trail corridor
