Rural Regional Bus Network Development

Role of Bustang Intercity Bus Service in the network is to provide much needed connectivity to Colorado's largest transit agencies along the I-25 Front Range Urban Corridor and the I-70 Mountain Corridor:
- Regional Transportation District (RTD)
- Transfort
- Mountain Metropolitan Transit (MMT)
- Roaring Fork Transportation Authority (RFTA)
- Eagle County Transit (ECCO)
- Vail Transit
- Summit Stage

Initial phases of the Bustang OUTRIDER Rural Regional Network will expand on Bustang and provide additional connections to regional activity centers such as:
- Pueblo
- Grand Junction
- Colorado Springs

COLOR OF MONEY

Bustang uses $3.5m FASTER annually (2019) but Outrider utilizes FTA 5311(f) Intercity Bus funds

Operations
- 5311(f) $1.6m in 2016 - estimated to be $1.7m in 2017, and $1.8m in 2018 due to modest increase in FAST act

Capital
- SB228 will be used to purchase vehicles and upgrade or develop supporting infrastructure (primarily Park and Rides)
Public Outreach

The OUTSIDER Rural Regional concept has had significant stakeholder outreach:
- All local transit entities through four Transit Town Hall meetings in March 2016
- Fifteen presentations to all TPRs and MPOs during April, May and June of 2016.
- A TRUC sub-committee has been involved over the past year in the development of the Rural Regional plan.

Input received has generally been very supportive with the following themes:
- Concept valued over level of service (LoS)
- Fare structure similar to Bustang is acceptable
- Flexibility in service design (scoo, vehicle type, etc.) is looked upon favorably
- Desire to see CDOT support the existing providers in the corridor
- Look at other services where there are existing gaps
- Partnerships with Human Service Organizations will be important over the long haul.

Balancing Viewpoints:
- Two TPRs felt the funds could be better spent on rural roads.
- Other TPRs wanted additional routes and more funds spent on transit.

CREATING THE MOST EFFECTIVE NETWORK

It is important to jointly view the statewide bus network concurrently. Bustang expansion (utilizing FASTER Statewide Bustang funds) and Rural Regional reconfiguration (utilizing 5331(f) funds).

The plan is broken into two phases:
- Phase 1 – FY 2016/17 DONE
  Deploy three new Bustang coaches and begin the reconfiguration of the current 5331(f) routes into a branded integrated service network.
- Phase 2 – FY 2017/18
  Provide locals with busts and 5331(f) funding and develop service packages where appropriate to go out to bid.
