MEETING MINUTES of the TECHNICAL ADVISORY COMMITTEE (TAC) North Front Range Transportation and Air Quality Planning Council

Windsor Recreation Center – Pine Room 250 North 11th Street Windsor, CO

> September 19, 2018 1:01 – 3:08 p.m.

TAC MEMBERS PRESENT:

Dave Klockeman, Chair – Loveland Will Jones, Vice Chair – Greeley Dawn Anderson – Weld County Eric Fuhrman – Timnath Tim Kemp – Fort Collins Ken Martin – Evans Rusty McDaniel – Larimer County Karen Schneiders – CDOT Dennis Wagner – Windsor

NFRMPO STAFF:

Ryan Dusil Alex Gordon Becky Karasko Medora Kealy Suzette Mallette Sarah Martin

TAC MEMBERS ABSENT:

Amanda Brimmer - RAQC
Stephanie Brothers - Berthoud
Aaron Bustow – FHWA
Gary Carsten - Eaton
Rick Coffin – CDPHE-APCD
John Franklin - Johnstown
Katy Mason - LCOA
Jessicca McKeown - LaSalle
Mitch Nelson - Severance
Ranae Tunison - FTA
Town of Milliken

IN ATTENDANCE:

Allison Baxter - Greeley Bob Fifer - CDOT Alana Koenig - CDOT

CALL TO ORDER

Chair Klockeman called the meeting to order at 1:01 p.m.

PUBLIC COMMENT

There was no public comment.

APPROVAL OF THE AUGUST 15, 2018 TAC MINUTES

Wagner moved to approve the August 15, 2018 TAC minutes. The motion was seconded by McDaniel and it was approved unanimously.

CONSENT AGENDA

FY2018-FY2019 UPWP Amendment #3 and 2045 Goals, Objectives, Performance Measures, and Targets (GOPMT) – Martin noted the percent of non-single occupant vehicle (SOV) commute trips target should be 25 percent instead of 30 percent. Jones moved to recommend Planning Council approve the FY2018-FY2019 UPWP Amendment #3 and the 2045 GOPMT with the updated target. The motion was seconded by Anderson and approved unanimously.

ACTION ITEMS

September 2018 TIP Amendment – Kealy reviewed the four Amendment requests included in the TAC packet. The *I-25: SH7 to SH1 project* will have its title updated to *North I-25: WCR38 to SH402*, which is within the NFRMPO Metropolitan Planning Area and reflects the project sponsor's revised project location. An updated Environmental Justice (EJ) Analysis will occur prior to the Planning Council meeting. Kealy noted Transit Asset Management (TAM) targets need to be incorporated into the TIP with any amendment after October 1, 2018, and the TIP Narrative will be updated to reflect this. Klockeman asked if the costs of the I-25 project will remain the same. Schneiders confirmed costs will remain the same. Schneiders moved to recommend Planning Council approve the September 2018 TIP Amendment. The motion was seconded by Kemp and approved unanimously.

2018 Call for Projects Process – Kealy reviewed the updates to the 2018 Call for Projects process based on TAC's comments at the August TAC meeting. The STBG community target table was updated, though targets did not change. STBG scoring criteria points reflect TAC input. The Intelligent Transportation Systems (ITS) requirements were updated to reflect ITS projects must conform to the Regional Architecture, whether they touch a State Highway or not. Kealy recommended reaching out to Larry Haas, CDOT Engineer, if TAC members have any questions on the definition of an ITS project. Mallette asked about the systems engineering process. Fifer replied it is handled by his team and involves checking if the project conforms to the Regional Architecture, figuring out if there is existing fiber in the project area, and involves little effort by the municipalities. Kealy stated the Buy America restrictions were clarified. The RAQC set-aside for air quality modeling has been included in the STBG funding information. The NoCo Bike & Ped Collaborative reviewed the Transportation Alternatives (TA) Non-Motorized Project Scoring Criteria and provided additional explanations for how non-motorized projects will be scored. Kemp asked if the CDOT project review is only for projects that touch State Highways. Kealy responded that is correct, but applicants can choose to submit other projects to CDOT for review.

Kealy stated the CDOT CMAQ formulas workshop has been delayed until October 9, 2018. Anderson asked how emission formulas will impact the Call for Projects schedule. CMAQ data requests are scheduled soon after the formulas are to be finalized, reducing TAC members' abilities to choose the most competitive projects. TAC members discussed the Call for Projects schedule and decided to hold a Work Session on the formulas between the workshop and the October TAC meeting.

Kemp moved to recommend Planning Council approve the 2018 Call for Projects Process with the exception of the CMAQ formulas. The motion was seconded by Jones and approved unanimously.

PRESENTATIONS

CDOT Smart Mobility – Bob Fifer, CDOT, presented on the various ITS and technology initiatives CDOT is undertaking. *Smart Mobility* will be incorporated as a new chapter in the *Statewide Transportation Plan* and address a five to 10-year vision to maximize the benefits of new technology in the transportation system. Fifer noted the CDOT *Region 4 Smart Mobility Plan* meeting will be held on November 1, 2018. CDOT is working with public and private agencies and

organizations to plan for and expand fiber throughout the State. Currently, CDOT estimates Colorado has approximately 1,200 to 1,300 miles of fiber. A Needs Assessment found Colorado would need more than 9,000 miles to adequately address the needs of the State. CDOT is working with Panasonic and other private entities to build an "Internet of Roads" (IoR), which will be used by vehicles to dispatch information and will help expand vehicle autonomy and safety. Additionally, CDOT is assessing the need for fiber and other technology, especially as vehicle technology is expanding. Mallette asked what the best way is to have conversations between municipalities, CDOT, and the private industry about fiber. Fifer stated CDOT needs to be engaged as part of the process and can act as an intermediary. CDOT will be leading an effort to create a central database of KMZ (mapping) data of fiber locations, which will help with efficiency of ITS systems between communities. Fifer will send out a save the date for the November 1 meeting, along with the brochure and fiber map.

DISCUSSION ITEMS

2045 Regional Transportation Element (RTE) – Gordon reviewed the draft *2045* RTE and *2045* RTE recommendations. The *2045* RTE was distributed to TAC following the August 2018 TAC meeting for review and comment. Jones asked if the regional rail study will be included and Gordon noted he will add it to the recommendations. The *2045* RTE will go to Planning Council as a Discussion Item at the October 4, 2018 Planning Council meeting.

FY2018 TIP Projects Review – Kealy stated the NFRMPO must review TIP projects each year and note if projects have issued a Notice to Proceed or have an advertisement date in the TIP project year. She reached out to project sponsors with projects with initial funding in FY2018 or earlier. Kealy noted of the 12 projects reviewed, eight are fully delayed and one has delayed components. Three projects have a second delay. Anderson stated the *Weld County Compressed Natural Gas (CNG) Vehicles & Expansion* project is delayed due to Buy America waiver issues, not because of Weld County. Jones noted the Greeley City Council approved the use of eminent domain for the 10th Street project, which is delayed due to right-of-way issues. Klockeman noted Loveland is trying to move the *US34/US287 VMS Boards* project along and have an expected completion date in summer 2019. TAC discussed holding a meeting between CDOT, the NFRMPO, and communities impacted by the Buy America waivers suspension prior to this item returning for Action. Kealy noted the TIP Delay policy does not provide detail on what happens if a portion of a project is delayed and asked for TAC input to clarify this issue for the next TIP update in spring 2019.

OUTSIDE PARTNER REPORTS

NoCo Bike & Ped Collaborative – Dusil requested TAC members reach out to him if they have any questions about the TA Non-Motorized Project Scoring Criteria. Dusil noted NoCo has received 50 RSVPs for the Leaders' Ride on October 12 from 1:00 p.m. to 5:00 p.m. along the Long View Trail. TAC members who are interested should reach out to Dusil.

Regional Transit Agencies – Jones noted the *Regional Route* is moving along. The Fort Collins City Manager has made a recommendation to fund the route, and the Windsor Town Board and the Greeley City Council support the route as well. GET is working through the bus capital process for the *Regional Route*. Jones also noted Torres is no longer with GET, and Jones will be the

Interim Transit Manager. Klockeman noted COLT is rolling out route and stop changes in Loveland, which will go live on November 5. Schneiders noted the Bustang to Broncos buses have been successful this season.

Senior Transportation – Gordon noted he is working on the FTA 5304 Request for Proposals for a One Call/One Click program, which is expected to be released later in the year. The Bustang Travel Training will take place on October 4, and 30 people have signed up so far.

REPORTS

Transportation Ballot Initiatives – Schneiders handed out an informational sheet on the two ballot initiatives. Schneiders stated 80 percent of funds from Proposition 109 would need to be expended within three years and projects would need to be bonded by July 2019. Mallette noted the NFRMPO has two projects on the list, and I-25 was prioritized over the US34/US85 interchange. Mallette also noted CDOT provided estimated amounts for each county and municipality for Proposition 110. Jones noted Greeley is moving forward on the Quality of Life sales tax, which will help fund transportation projects.

Roundtable – Karasko noted the next Model Steering Committee meeting is scheduled for October 25.

Schneiders noted CDOT is in the middle of the annual FHWA financial shutdown and estimates it will be back up and running the week of October 1, 2018.

Kemp noted the North College project will be advertised in November. The second closure of Horsetooth Road as part of the *Horsetooth and College Intersection Improvement Project* is complete. Construction is expected to be completed by early November.

Mallette noted the NFRMPO received a draft version of the Planning Certification Review. The NFRMPO will be making tweaks to address comments.

MEETING WRAP-UP

Final Public Comment - There was no final public comment.

Next Month's Agenda Topic Suggestions – There will be two Action items: 2045 RTE and Call for Projects CMAQ Emissions Formulas; three presentations: Call for Projects application training, Northern Colorado Clean Cities, and RAQC on ozone and outreach; and two Discussion items: 2045 RTP policies and Safety Targets, if information becomes available.

Meeting adjourned at 3:08 p.m.

Meeting minutes submitted by:

Alex Gordon, NFRMPO Staff

The next meeting will be held at 1:00 p.m. on Wednesday, October 17, 2018 at the Windsor Recreation Center, Pine Room.

MEMORANDUM

To: NFRMPO Technical Advisory Committee

From: Alex Gordon

Date: October 17, 2018

Re: 2045 Regional Transit Element (RTE) **CONSENT**

Background

The 2045 RTE is the Transit Element of the NFRMPO's 2045 Regional Transportation Plan (RTP). Federal legislation requires MPOs to consider transit in their long-range plans, while CDOT requires a specific Transit Element of the RTP. The 2045 RTE is divided into four sections: data analysis (socioeconomic and existing transit); service and demand analysis; financial analysis; and recommendations. NFRMPO staff conducted outreach efforts to provide real-world perspectives on the existing and future transit systems in the region.

From August 17, 2018 through August 31, 2018, the *2045 RTE* was available for public comment. During this time, comments were received from 12 different agencies and individuals. All comments were incorporated into the final draft presented to TAC. On September 19, 2018 meeting, TAC discussed the final draft of the *2045 RTE*. TAC commented the *2045 RTE* should consider all potential corridors in the Build-Out Scenario for additional study. The comment was incorporated into the recommendation. On October 4, 2018, Planning Council discussed the *2045 RTE* but no additional comments were provided.

The updated 2045 RTE is available to download at: https://nfrmpo.org/wp-content/uploads/2045-rte.pdf

Action

Staff requests TAC recommend Planning Council adopt the 2045 Regional Transit Element at the November 1, 2018 meeting.

419 Canyon Avenue, Suite 300 Fort Collins, Colorado 80521 (970) 221-6243 FAX: (970) 416-2406 nfrmpo.org

MEMORANDUM

To: NFRMPO Technical Advisory Committee

From: Medora Kealy

Date: October 17, 2018

Re: 2018 Call for Projects CMAQ Emissions Formulas

Background

The Colorado Department of Transportation (CDOT) convened a workshop on October 9, 2018 to develop recommended CMAQ emissions formulas to promote consistency across the state. The workshop invitees included staff from CDOT, the Denver Regional Council of Governments (DRCOG), the Federal Highway Administration (FHWA), the NFRMPO, the Regional Air Quality Council (RAQC), and the Upper Front Range (UFR).

The formulas and tools recommended at the CDOT workshop will be discussed at the TAC CMAQ Emissions Formulas Work Session on October 11, 2018. The discussion at the Work Session will be summarized and relevant materials will be provided at the October 17, 2018 TAC meeting.

Action

Staff requests TAC determine which CMAQ emissions tools to use in the 2018 Call for Projects.

Northern Colorado Clean Cities

Clean Cities Program Overview

Funding in Colorado Overview

Why Clean Cities?

Clean Cities

advances the energy,
economic, and
environmental security of
the United States by
supporting local actions
to cut petroleum use in
transportation.

Reduced petroleur consumption

Reduced greenhouse gas (GHG) emissions

Reduced dependence on imported petroleum

3

About Clean Cities

Reduction

The U.S. Department of Energy's (DOE's) Clean Cities program started in 1993 to advance the nation's economic, environmental, and energy security by supporting local actions to cut petroleum use in transportation.

Who We Are

- Nearly 100 local coalitions, nationwide, with over 15,000 stakeholders.
- Clean Cities coalitions are comprised of businesses, fuel providers, vehicle fleets, state and local government agencies, and community organizations.
- Clean Cities stakeholders have saved more than 8.5 billion gallons of petroleum since its inception in 1993.
- In 2001 Northern Colorado Clean Cities expanded and became a 501(C)3 organization

What We Do

- Connect fleets with fuel providers and industry partners
- Offer training and information, supply access to technical assistance
- Identify funding, collect data and progress to build a set of best practices.

Refuel Colorado

An Energy Coaching Program for Fleet Managers and Communities

For more information, visit: www.refuelcolorado.com/colorado-fleet-resources

Overview

Refuel coaches help fleets identify monetary savings and other advantages from converting to alternative fuels, particularly compressed natural gas, electricity, and propane. The program also builds self-sustaining alternative fuel markets by working with community leaders, fuel providers, and dealerships. Refuel Colorado coaching is

Refuel coaches help fleets calculate the life-cycle cost savings from switching to alternative fuel vehicles and they identify grant programs and tax credits. The coaches also provide technical guidance on issues like fueling or charging, maintenance, and safety. Coaches help fleet managers understand what incentives apply to their vehicles based on their location, vehicle class, fuel type, and whether the fleets are public or private. They also identify existing fueling infrastructure and inform fleets about stations in the planning and construction phases.

Communities

Refuel coaches can help business and government leaders understand the financial, environmental, economic development, and energy security advantages from promoting the use of clean, Colorado fuels. By working with an entire community, coaches create an ecosystem of broad support and all the resources necessary for a successful transition to alternative fuels.

Fuel Providers

Refuel coaches consult with fuel providers about market opportunities and financial incentives for alternative fuel vehicles. The coaches explain engineering and design requirements needed to develop fueling or charging stations.

Dealerships

Automobile dealerships talk with Refuel coaches about popular alternative fuel vehicles to stock and likely customers. The coaches supply information about alternative fuel costs, state tax credits, and other financial incentives to help customers choose alternative fuel vehicles.

Refuel Colorado is funded by the Colorado Energy Office. The U.S. Department of Energy funded its pilot stage. The program is administered by BCS, Incorporated with fleet coaches serving every county in the state. See www.refuelcolorado.com/ colorado-fleet-resources for more information.

BCS, Incorporated Joan Gaspersic Phone: 410-794-6069 Email: jgaspersic@bcs-hq.com

Refuel Colorado Fleet **Coaching Pilot Overview**

Refuel Colorado Fleet Coaching was launched as a pilot program in April 2013, using the "energy coaching" model developed by CLEER to accelerate the adoption of alternative fuels for transportation across Colorado.

The fleet coaches selected nine pilot communities, organized public events to raise awareness of alternative fuels, and provided coaching and fleet analyses to help fleet owners plan purchases of alternative fuel vehicles

The Refuel Colorado Fleet Coaching pilot project proved successful in engaging fleets and helping them switch to alternative fuel vehicles and transitioned to a statewide program funded through the Colorado Energy Office.

Refuel Colorado Fleet Coaching by the Numbers in Calendar Year 2016

Alt Fuels Colorado

Grant funding for fueling stations

Up to \$500K per station

Grant funding for AFVs (CNG, LNG, propane, EV, CNG bi-fuel)

- The RAQC's AFC vehicle program will expand to include two separate funding sources: the original funding from the Federal Highway Administration and the new settlement funding.
- The existing Front Range program will continue to fund CNG, CNG bi-fuel, LPG, and electric vehicles for public, non-profit, and private fleets. The new statewide program will fund freight switchers, airport ground support equipment along with CNG, LPG, electric, and certain diesel vehicles for public and private fleets throughout the state.
- o 80% of incremental cost up to cap Front Range Program
- o 25% 40% of total vehicle cost up to cap Statewide Program
- Amounts granted differ for vehicle weight class and entity requesting funding
- o Fort Collins has received nearly \$700k for 29 CNG vehicles

http://cleanairfleets.org/programs/alt-fuels-colorado

Charge Ahead Colorado

Grant Funding for EVs & EVSE

- EVs limited to 7 county non-attainment region (Denver metro and parts of Weld)
 - Cover up to 80% of incremental cost
 - Local governments prioritized

EVSE eligible throughout state - Level 2 or 3

- Up to 80% of eligible costs covered up to a maximum cap
- o Fort Collins has been awarded 18 Level 2 chargers

http://cleanairfleets.org/programs/charge-ahead-colorado

Workplace Charging

Local businesses can apply to fund installation of charging stations at their place of business

o Employee benefit

Acknowledgement through CEO and/or DOE workplace charging challenges

Group Buy / Power Purchase

- Work with local car dealership to offer discounted price and sales incentives
- Take advantage of tax credits
- Encourages residents to purchase EVs

- CDOT Review

2018 Call for Projects Guidebook
Project Selection for the NFRRPO CMAQ, STBG, and TA
Programs in FY2022 and FY2023

conduct, BYS

NFRMPO nicitativi reconstruiri reconstruiri

Access the Guidebook at https://nfrmpo.org/wp-content/uploads/2018-call-for-projects-guidebook-final.pdf

2018 Call for Projects

Call Changes

Call process based on 2016 Call, except:

- Added a review by CDOT for ITS projects
- Revised scoring criteria
- Requiring CMAQ and STBG projects to contribute to attainment of a federally required PM target
- Prohibiting projects requiring a vehicle Buy America waiver

CMAQ - \$9.8M

CMAQ emissions formulas decided by TAC

STBG - \$8.4M

\$25,000/year STBG set-aside to RAQC for ozone modeling

TA - \$661K

82.79% federal share (corrected from 80%)

2018 Call for Projects

Call for Projects Schedule

Activity	Date	
Call for Projects Opens	October 12, 2018	
CMAQ Project Descriptions Due	November 21, 2018	
Mini-Applications Due to CDOT	November 21, 2018	
CMAQ Air Quality Data Due	December 7, 2018	
CDOT provides review to applicants	December 7, 2018	
CMAQ, STBG, and TA Applications Due	December 21, 2018	
CMAQ, STBG, and Environmental/Historic TA Project Scoring Meeting	TBD January 2-8, 2019	
Non-Motorized TA Project Scoring Meeting at NoCo Bike and Ped	January 9, 2019	
TAC Discussion of Recommended Projects – Staff Presentation	January 16, 2019	
Council Discussion of Recommended Projects – Applicant Presentations	February 7, 2019	
TAC Action on Recommended Projects	February 20, 2019	
Council Action on Recommended Projects	March 7, 2019	

Application Reminders

- Project Description: factually describe the project, not its benefits
- Provide a realistic schedule
- Funding use year of expenditure in cost estimate
- Include project map (project limits must be entirely within the NFR metropolitan planning area)
- Provide CDOT letter of support for projects touching a state highway (must submit mini-application to CDOT by November 21)
- Include data to demonstrate contribution to achievement of target(s)

5

2018 Call for Projects

CMAQ Criteria and Max Request

CMAQ Evaluation Criterion	Possible Points
Short Term Emissions Benefit (Year 1)	20
Long Term Emissions Benefit (Years 2-5)	30
Cost Effectiveness (Cost ÷ Total Emissions Benefit)	30
Contribution to Achievement of Targets	20
TOTAL	100

Max Request per entity: \$2,037,361

CMAQ Eligible Projects

- Diesel engine retrofits
- Diesel vehicle repower
- Idle reduction strategies
- Park and ride lot construction
- Incident management
- Alternative fuel vehicle/bus
- Alternative fuel stations
- Transit service expansion
- Transit amenity improvements
- Extreme-temperature cold start technologies
- Bicycle and pedestrian facilities and programs
- Employee transit benefits
- Intermodal freight
- Intersection improvements
- Traffic signal synchronization

- Roundabouts
- Intelligent Transportation Systems (ITS), including Vehicle-to-Infrastructure (V2I)
- Congestion pricing
- Carpooling / vanpooling
- Carsharing
- Ridesharing
- Bikesharing
- Subsidized transit fares
- Travel Demand Management (TDM) strategies and outreach

*Cannot require the issuance of a vehicle Buy America waiver

7

Minimum request is \$100K

Small communities (those with a population of 50,000 or less) may apply for the small community set-aside fund in addition to their population-based target. The fund is equal to 50 percent of the cumulative population-based small community targets. Small communities may also apply to partner with large communities. The overall target for small communities is the sum of their population-based targets and the set-aside fund.

Large communities (those with a population over 50,000) may apply for up to thirty percent additional funding beyond their population-based target. The overall target for large communities is the sum of their population-based targets.

Small Communities Overall Target	\$2,545,31
STBG Funding Percent	30.69
Population Percent	20.49
Large Communities Overall Target	\$5,774,84
STBG Funding Percent	69.49
Population Percent	79.69
RAQC Ozone Modeling Set-Aside	\$50,00
TOTAL FY22 & FY23 STBG FUNDING	\$8,370,156

Enhance Safety	24	
Environmental Sensitivity	24	
Provide Transportation Equity	8	
Project Readiness	20	
Integration with Plans and Community Documented Support	24	
TOTAL	100	

Project Delays

- A "delay" occurs:
 - When a construction-related project is not advertised during the fiscal year assigned in the TIP
 - When a non-construction project or program is not issued a "Notice to Proceed" during the fiscal year programmed in the TIP
- Granting Extensions:
 - TAC may recommend a one year extension for projects if CDOT can guarantee the funds in the next fiscal year.
 - TAC may recommend a 2nd extension if a previously delayed project still cannot meet the advertisement or notice to proceed date within the programmed year. The community may be granted a 2nd extension if extenuating circumstances exist outside the project sponsor's control preventing the project from moving forward. TAC may also recommend Planning Council remove the funds from the project and fund another project or return the funds to the pool for the next fiscal year if the funding can be guaranteed by CDOT. Project sponsors may appeal the decision to both the TAC and Planning Council. Planning Council makes the final decision on 2nd extensions.

11 2018 Call for Projects

Due Dates

CMAQ and/or ITS project descriptions due **November 21 by 5:00 PM** to mkealy@nfrmpo.org

Mini-Applications (required for projects touching state highways) due **November 21 by 5:00 PM** to karen.schneiders@state.co.us

CMAQ air quality data due December 7 by 5:00 PM to mkealy@nfrmpo.org

Applications due **December 21 by 5:00 PM** to mkealy@nfrmpo.org

Application assistance is available!

3 2018 Call for Projects

Local Agency Federal Aid Projects

TIP Training Workshop on Process Requirements:
What Every Project Manager
(and Applicant) Should Know

August 2018

CDOT Local Agency Project Oversight

- What is CDOT's Role?
- What is the Process?
- What are Red Flags to Avoid?
- Cost & Schedule pitfalls

22 of 53

CDOT Local Agency Manual (July 2017 revision)

- Federal \$\$ come with requirements that can impact your:
 - Cost
 - Scope
 - Schedule
- Set realistic dates for project development and delivery
- Talk with CDOT early Peer Reviews are Available

CDOT/Local Agency IGA

- No federal reimbursement without an Intergovernmental Agreement
- · What does an IGA define?
 - Scope of Work-As per the approved TIP Application
 - Project responsibilities (Form 1243)
 - Funding Provisions (TIP Application and Cost Estimate for Exhibit C of IGA - Design, ROW, Utilities, Misc, Construction)
 - Payment obligations (FHWA authorizes phases of work, Allows spending of funds)
 - Phase and Project Deadlines (Start and end dates for phases are established as each phase receives FHWA authorization)

23 of 53 2

Consultant Selection

- If you want to receive reimbursement with federal funds for the design consultant costs:
 - Follow the federal-aid selection process (Brooks Act) included in Exhibit H of the IGA along with a list of federal and state laws.
 - Chapter 5 of the Local Agency Manual
 - Local Agency prepares documents stating the need for professional services and develops the RFP.
 - CDOT Reviews the RFP.
 - Local Agency advertises the RFP upon CDOT approval and inclusion of a DBE goal for a minimum of 15 days.
 - Local Agency conducts interviews and selection is based on competence and qualifications only (cost not a consideration since cost must be fair and reasonable as pursuant to CRS-24-30-140)
 - After a consultant is selected, the LA negotiates costs with the consultant and they execute a contract. The LA then issues the Notice of Proceed to the consultant and copies CDOT.

Project Schedule

- Milestones:
 - Kickoff/Scoping meeting
 - Field Inspection Review (30% Design)
 - Final Office Review (90% Design)
 - Clearances-ROW, Utility, Environmental
 - Plans & Specs and Estimate Approval
 - Concurrence to Ad

24 of 53

Utilities

Local Agency Responsibilities

- Distribute plans and meeting invitations to owners for review. Provide plans to CDOT Utilities a minimum of 2 weeks prior to each milestone meeting.
- Draft, negotiate, and execute required agreements, including the Public Utilities Commission action for Railroads.
- Incorporate all elements of the agreements into the plans, Utilities specification, and Railroad requirements specification.

25 of 53

Utilities Red Flags

- Contact CDOT early to walk through the Utilities process.
- In application development, determine what utilities will be impacted, if there will be a potential conflict, if relocation are required, determine who will actually perform the work and how the work will be paid for.
- Build in time into the project schedule- both for plan reviews and for Utility relocations.

Environmental

26 of 53

Environmental: Federal vs. Non-Federal

Federal funding triggers the following laws not triggered with local or state funding:

- National Environmental Policy Act (NEPA)
- Section 4(f) Historic- if you have takings of buildings greater than 50 years old this substantive law applies
- Section 4(f) Parks & Recreation if you are touching parks or recreation resources (trails) this substantive law applies

The above will impact your project in terms of scope, fee, and schedule

These items apply regardless of funding:

- Wetlands Section 404
- Migratory Bird Treaty Act
- Section 6(f) Land & Water Conservation Fund
- Clean Air Act
- Endangered Species Act
- MS4 compliance

In addition, items apply on CDOT roadways:

- Noise Analysis
- Air Analysis
- Archaeo/Paleo
- Hazardous Materials

Environmental: Success Tips for Federal Funding

• Environmental scoping meeting with CDOT

- Provide environmental scope for consultants to CDOT for review
- Identify red flag resources early
- Engineers work in conjunction with environmental to avoid & minimize impacts

27 of 53 6

Environmental Bottom Line....

 Coordination with CDOT Environmental Staff - Early and Often

Right of Way

28 of 53

Right of Way

- If any portion of the project receives federal reimbursement, (even just one traffic signal) Uniform Act must be followed. CDOT local agency staff and ROW team can help advise.
- You must identify ROW at scoping. The ROW process following the Uniform Act takes time, money and paperwork and adds 9-12 months to your schedule, no matter your funding source, size of project or size of acquisitions.
- You must have environmental approval to submit plans for approval. Review and approval takes 1-2 months, depending on quality of plans submitted.

Right of Way: Red Flags

- Are you willing to condemn?
 Can you condemn?
 Are you ready to condemn?
- If relocation is involved, start early.
 Talk to CDOT ROW ASAP
- Always assume worst case when scheduling, relocation and condemnation can add 9-18 months

29 of 53

Final Thoughts

Construction: Red Flags

- Allocate sufficient local agency staff / resources to manage and document the project.
- Local agency must have a soils/materials engineer assigned to do required testing - sometimes this is overlooked.
- Keep the CDOT project manager informed throughout project completion. Can help avoid project delays.

30 of 53

Recent Red Flags

- Buy America (no waivers)
- Federal Legislation changes
- External factors (natural disasters)
- Economic Influences on Bids

Thank you!

Questions?

31 of 53 10

AGENDA ITEM SUMMARY (AIS)

North Front Range Transportation & Air Quality Technical Advisory Committee (TAC)

Meeting Date	Agenda Item	Submitted By	
October 17, 2018	October 17, 2018 2045 RTP Scenarios		
Objective / Request	Action		
To discuss potential la Regional Transportati	and use and travel model scenarios for the 2045 on Plan (RTP).	☐ Report ☐ Work Session ☑ Discussion ☐ Action	

Key Points

- The 2045 Land Use Allocation Model (LUAM) and 2045 Regional Travel Demand Model (RTDM) are under development and are expected to be completed in early 2019.
- The Model Steering Team (MST) discussed scenarios at their July and August meetings, and their input is reflected in the attached presentation.

Committee Discussion

This is the first time this item has been brought to TAC.

Supporting Information

Scenario planning is a best practice and was recommended in the 2014 Federal Certification Review. For MPOs that choose to develop multiple scenarios for consideration in the RTP, federal regulations encourage the consideration of:

- Potential regional investment strategies for the planning horizon;
- Assumed distribution of population and employment;
- A scenario that, to the maximum extent practicable, maintains or improves baseline conditions for the federally required performance measures;
- Revenue constrained scenarios based on the total revenues expected to be available over the forecast period of the plan; and
- Estimated costs and potential revenues available to support each scenario.

Advantages

- Scenarios can be used to identify strategies that "hold up" across a variety of potential futures.
- Scenarios can identify the impacts of transportation investment decisions.

Disadvantages

None noted.

Analysis /Recommendation

Staff is requesting TAC review and discuss the proposed scenarios and provide feedback to staff.

Attachments

• 2045 RTP Scenarios Discussion Presentation

2045 RTP Scenarios Discussion

Technical Advisory Committee (TAC)

October 17, 2018

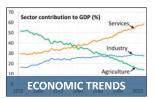

Model Scenarios Discussion

Why Develop Scenarios?

- Represent alternative future conditions caused by external factors and policy choices
- Reflect variety of potential futures
- Identify strategies that "hold up" across a variety of inputs
- Identify tradeoffs for policy choices

Model Scenario Discussion

2040 RTP Scenarios

Roadway Scenarios

- Constrained: Use all STBG funds to widen I-25 between SH14 and Harmony Road
- Unconstrained: Widen I-25 between SH14 and SH392
- Unconstrained: I-25 Full EIS Build-Out between SH14 and SH66

Outputs

Vehicle Miles Traveled (VMT)

Vehicle Hours Traveled (VHT)

Travel Time Index (TTI)

Transit Scenario

• Constrained: Use all STBG and CMAQ funds for transit improvements

Transit Ridership

3

Model Scenario Discussion

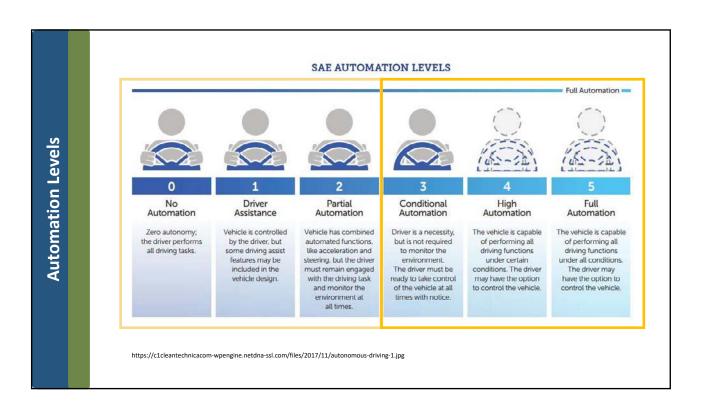

Draft CDOT 2045 Scenarios

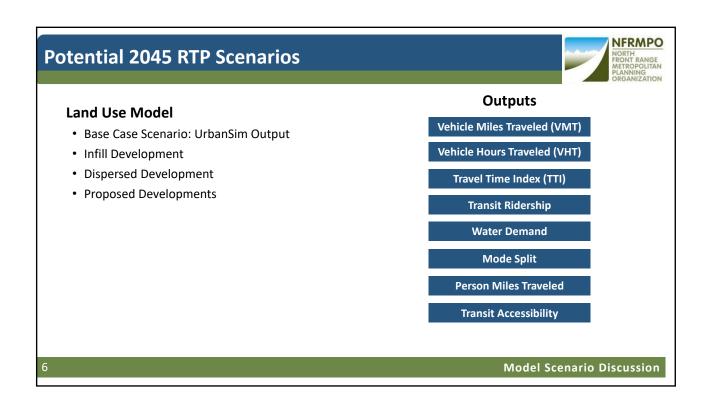

Components	Colorado Status Quo	Colorado in Transition	Colorado on the Go!
Connected and Autonomous Vehicles (CAV) VMT	Urban – 20% Rural – 15%	Urban – 50% Rural – 15%	Urban – 90% Rural – 50%
Mobility-as-a-service	Low	Medium	High
Private Vehicle Ownership	High	Medium	Low
Dedicated CAV Facilities	No	Medium	High
Freight Platooning	No	Medium	Medium
Vehicle-to-Everything (V2X)	No	Medium	High
Congestion	High	High	Low
Crashes	High	Medium	Low

4

Model Scenario Discussion

NFRMPO Potential 2045 RTP Scenarios Outputs Transportation Model Vehicle Miles Traveled (VMT) · Base Case Scenario: Fiscally constrained priority projects Vehicle Hours Traveled (VHT) • Unconstrained: All constrained and illustrative projects (roadway, transit, and non-motorized) Travel Time Index (TTI) • Unconstrained: Meet Targets (TTI, non-SOV trips, VMT per **Transit Ridership** capita) · Constrained: RTE corridors **Water Demand** • Constrained: I-25 **Mode Split** • Constrained: Intra-regional roads • Constrained: Travel Demand Management strategies **Person Miles Traveled** Connected and Autonomous Vehicles **Transit Accessibility Model Scenario Discussion**

Next Steps and Discussion

- TAC Refine 2045 Scenarios
- Public Involvement Scenario feedback and idea generation
- Planning Council Discuss 2045 Scenarios
- Which scenarios should be tested?
- What outputs should be analyzed?

Model Scenario Discussion

Northern Colorado Bike & Ped Collaborative

Executive Summary - Wednesday, October 10, 2018 Windsor Recreation Center, Pine Room 250 11th St. Windsor, CO 80550

Northern Colorado Leaders Ride

Dusil stated all details are finalized for the ride on Friday, October 12.

NFRMPO 2045 RTP Policy Development

Martin stated NFRMPO staff are developing policies for the **2045 Regional Transportation Plan** (RTP). These policies will relate to the Goals, Objectives, Performance Measures, and Targets (GOPMT) and NoCo will be asked for feedback at a future meeting on any policies related to the non-motorized performance measures and targets. Dusil added NFRMPO staff will work to incorporate NoCo's feedback on the GOPMT baseline and monitoring into the 2019 Congestion Mitigation Process.

2018 Call for Projects Schedule

Dusil stated the Call for Projects schedule changed to allow potential applicants to make any changes to applications after the November election, given the implications for transportation funding. Potential applicants should <u>visit the NFRMPO website to view the Call for Projects Guidebook</u> and attend the October 17 TAC meeting.

E-Scooter Demonstration and Policy Discussion

Fodge demonstrated how the electric scooter (e-scooter) works, indicating it has a 19-mile range per charge, travels up to 15 miles per hour, has a headlight, taillight, and a bell, and narrow handlebars making it difficult to use hand signals. E-scooter companies charge \$6-\$12 per hour to ride the scooters. CSU and the City of Fort Collins are working together to discuss the feasibility and safety considerations of allowing e-scooters, with a City Council work session scheduled for November. Fodge stated enforcing speed will be difficult, but technology will eventually allow the e-scooter speed to be governed digitally using a geofenced zones throughout the City characterized by maximum speeds, outright bans, and/or varying fines. State statute currently defines e-scooters as toys, prohibiting them on roads. Cities could get around this with local ordinances. The group raised questions about the long-term maintenance and misuse of the scooters. Fodge stated reckless riding can be enforced more easily than speed and maintenance concerns are yet to be vetted. Smith stated it would be helpful to monitor the progress, ordinances, and approaches that work or do not work in other communities and summarize this information for decision makers. NoCo will continue to monitor the issue and keep it as a discussion item on future agendas.

Counter Data Trends

Dusil stated Eaton performed counts on the unimproved portion of the Great Western Trail east of the Eaton Recreation Center and saw an average of 45 users per day. Eaton is currently performing traffic counts on local streets with a Jamar tube counter from the NFRMPO. These counts will include bicycle traffic as well.

Greegor stated many of their trail counter annual trends have remained steady, but the stagnant numbers may be offset by increased bike traffic on parallel routes with recently improved infrastructure and signage. The City purchase cameras to validate their tube counters for the Mulberry Protected Bike Lane Project and have noticed issues with the tube counters. Greegor will provide more information at a future meeting.

Future Agenda Items

- 2045 RTP Policies
- NoCo and NFRMPO Fiduciary Agreement
- Composite Fiber Trail Technologies
- Trust for Public Lands

- Electric Scooter and Electric Bike Regulation
- Colorado Senate Bill 144 (Bicycle Safety Stop / Idaho Stop Law)

Mobility Coordination In the North Front Range MPO

Larimer County Senior Transportation Update

Continuing the progress made during the Larimer County Senior Transportation Needs Assessment, the Larimer County Senior Transportation Work Group (Work Group) applied for and received two grants in summer 2018: the National Aging and Disability Transportation Center (NADTC) Getting Ready to Innovate grant and an FTA \$5304 grant. The Work Group is made up of staff from Berthoud Rural Alternative for Transportation (RAFT), Larimer County Community Planning Infrastructure & Resources, Larimer County Department of Public Health and Environment Built Environment Program, Larimer County Office on Aging, the NFRMPO, and the Partnership for Age-Friendly Communities (PAFC).

The NADTC grant will create an expert panel made up of advocates, transportation providers, older adults, and individuals with disabilities. Members of the expert panel will evaluate multiple software and technology toolkits, which will be used to set up a One Call-One Click Center. The One Call-One Click Center will begin as a way to connect individuals needing rides to the existing providers that will best serve the user's need(s). The project will be completed by December 2018.

The FTA §5304 grant will build on the work done as part of the NADTC grant and create an *Implementation Plan* for the One Call-One Click Center. The project will identify partnerships, market research and outreach opportunities; design services to be implemented; develop a business and financial plan; and synthesize the strategies into an *Implementation Plan*.

Rider's Guide Updates

More than 560 users have logged onto the online service to find potential service matches since January 1, 2018, with 99.4 percent of users being new. To request printed Rider's Guides, contact Alex Gordon at agordon@nfrmpo.org or (970) 416-2023. The online Rider's Guide is available at noco.findmyride.info.

2045 Regional Transit Element

The NFRMPO has published a draft version of the 2045 Regional Transit Element (2045 RTE). The recommendations from the 2045 RTE include: continue and expand regional cooperation; consolidate planning efforts; invest equitably; maintain and CDOT's Transit implement Development Program; consider and develop transit technology; educate the public on existing and planned transit routes and programs; and focus on achieving targets for federallyrequired performance measures. The 2045 RTE is anticipated to be adopted by the NFRMPO Planning Council at their November 1st, 2018 meeting.

Bustang Travel Training

A regional collaborative effort will bring Bustang Travel Training to the region. Through a partnership of AARP, BATS, COLT, the NFRMPO, PAFC, RTD, and Transfort, a regional travel training will show adults over 50 years of age how to ride their local transit, connect to Bustang at Harmony Transfer Center or US34 Park -n-Ride, then traverse Denver Union Station to connect to light rail, commuter rail, buses, and downtown Denver.

Mobility Coordination Goal Make sure people who need transportation have access to the service they need for self sufficiency and to live independently.

Mobility Management Funding

The NFRMPO Mobility Coordination Program is funded with Federal Transit Administration (FTA) §5310 funds.

NFRMPO mobility coordination program activities are centered on education and cooperative resource-sharing to use existing transportation dollars most efficiently. Examples

include travel training, cooperative research, public forums, program implementation, FTA grant administration and public education.

Funding has been secured for §5310 funds from both CDOT for Weld County and Fort Collins on behalf of the Fort Collins-Loveland-Berthoud TMA.

NFRMPO Summer Outreach Summary

Each year, NFRMPO staff attend community events across the region to help communicate the goals and services of the North Front Range MPO, while providing the public an opportunity to tell staff their priorities for the transportation system. Staff administered 120 general surveys across several community events. The survey asked whether community members had heard of the NFRMPO, how they typically like to receive transportation updates, what their top transportation priorities are, and how they usually commute to work.

This year, the summer outreach program coincided with the 2045 Regional Transit Element (2045 RTE) update. To help inform the 2045 RTE, an RTE-specific survey was disseminated to community partners. Over 500 survey responses were received, including 24 in Spanish. 2045 RTE outreach, which included technical experts, Planning Council members, community liaisons, and members of the public, helped to guide the Plan vision, the corridors explored in the scenario chapter and the Plan recommendations.
