

## Community Advisory Committee

The North Front Range Metropolitan Planning Organization (NFRMPO) is a regional transportation planning agency that works with thirteen municipalities and two counties in Northern Colorado. To better ensure the regional transportation system matches the expectations and needs of all residents, the NFRMPO is starting a Community Advisory Committee (CAC).

The goal of the CAC is to create an on-going forum for members of the community, especially historically underrepresented voices, to provide input into the transportation planning process at all stages of project development. The CAC will be made up of members who are not currently represented in existing NFRMPO committees. The NFRMPO seeks to form a diverse group with the understanding that each member is an individual, not a representative of an entire community.
