- Trevor Trepanier, GET
- Mayra Orozco, Northern Colorado Health District
- Co-Chair Adriana Torres, Via Mobility
- Steve Conway, RAFT

**Staff:**

- Aaron Hull, NFRMPO
- Elizabeth Relford, NFRMPO

**Introductions & Icebreaker**

Aaron introduced and welcomed Elizabeth Relford, the new MPO Executive Director, to the NCMC. Then, both virtual and in-person attendees introduced themselves and their organizations.

**Public Comment**

No public comment.

**Approval of May Minutes**

Steve Teets made a motion to approve the May minutes, as amended to remove Steve's name, which was duplicated, with a second from Kristi Swasko. The Committee unanimously approved the amended minutes.

**November NCMC Meeting Date Discussion**

Aaron Hull explained to the Committee the timing of the November NCMC meeting, as it corresponds to the Planning Council's schedule for discussing the 2025 Coordinated Plan. Therefore, if the Committee would like to comment on the plan before the November 6<sup>th</sup> Planning Council meeting, it needs to reschedule the next regularly scheduled meeting from November 18<sup>th</sup> to November 4<sup>th</sup>.

Steve Teets made a motion to move the meeting from the third Thursday of the month to the First Thursday of November. Committee Member Swasko seconded the motion, and it was unanimously approved.

**Activity****Speed Networking.**

The in-person group participated in a speed networking exercise to get to know each other and learn more about their respective organizations and services. The remote participants provided updates about their organizations online.

**Presentations****RideNoCo Updates**

Aaron provided a Ride NoCo update. This year's calls are trending similarly to those of last year. Website visits are trending higher than expected at this time of year compared to the same period the previous year. The mobility staff are working on updating the call sheet to include new features/data points that reflect the updated demographics. Additionally, staff have added more questions to better capture service gaps.

Steve Teets asked staff how they attempt to identify gaps in service when they gather this information. Aaron said they do their best to arrange services when speaking with clients. After documenting the gaps, staff can help raise awareness within the organization, enabling them to communicate effectively through the network.

The group discussed how our organizations can share data to support one another, to help elected officials understand the importance of transportation for quality of life.

Aaron handed out updated Riders' Guides. Contact the NFRMPO if you would like copies sent to your agency.

Aaron also handed out updated Provider's Guide handouts to share with the group. Lisa is also working as an extensive resource guide. MPO staff will email out a PDF version to the group.

Aaron went over the upcoming RideNoCo events with the group. Wrapping up the summer outreach. If your organization has any holiday events you would like staff to attend, please notify us.

Aaron provided an update on the 2026 Aspen Club and RideNoCo Transportation Fairs. The group discussed the Aspen Club and its role in delivering holistic well-being care for aging populations.

## **2025 Coordinated Plan Update**

Aaron is finalizing the 2025 Coordinated Plan. Outreach is wrapping up, and the survey will close on Friday, August 29<sup>th</sup>. Organizations are encouraged to provide comments before it closes. The survey has been conducted for six months, and staff have received seventeen responses to date. Staff provided a summary of gaps identified in the survey responses.

Steve Teets suggested that the region consider establishing a Regional Transportation Authority (RTA) as a funding mechanism to enhance transportation services and options in our area.

Some concerns are that GET does not currently have a fixed bus route to the UC Health Hospital. Call-in-Ride is a service available to Greeley Hospital as an alternative option.

## **GoNoCo34 Presentation**

Jaclynn Streeter presented to the Committee about the GoNoCo34 TMO, a transportation management organization dedicated to improving mobility, reducing congestion, and promoting sustainable transportation options along the US 34 corridor.

Jaclynn updated the Committee on upcoming outreach events.

Jaclynn asked the Committee 2 questions:

1. What is the most critical transportation issue that affects your community? Some responses included:
2. How can the TMO support your organization?

Jaclynn received the following feedback from the questions asked:

- Medical transportation.
- After-school transportation needs for kids.
- Having a sound transportation system that covers all groups.
- Lack of information in our community about what our transportation options are.
- The need to have everything instantaneously on demand does not mean services are not available.
- First and last mile connections.
- Greeley has the fastest-growing population in the state. How do you redesign routes to offset existing needs and still address future needs?
- How do you manage expectations while ensuring funding for continuing service?
- Lack of connectivity not just routes, but with other organizational communications.

## Break

A break was taken at 2:39 p.m., and the NCMC meeting resumed at 2:51.

## Discussion

## **2025 TMO Call for Projects Information**

Aaron presented the TMO call for projects to support TMO efforts in the region. The MPO hired Steer to facilitate the creation of a TMO Guidebook and a Call for Projects framework. The funding is from the Carbon Reduction Program (CRP) for fiscal years 2024-2027, for \$400,000, with a local match of \$83,120, as currently identified in the TIP.

The call for projects has been modified from a TDM call to a TMO focus to align with the initial goal of establishing TMOs in the region.

Staff received feedback from entities regarding funding amounts and scoring criteria goals. Today, the staff is here to gather feedback from NCMC. The mobility staff will present recommendations to the TAC in September and discuss them with the Planning Council in October. The goal is to open the call for projects on November 7<sup>th</sup>.

Anna Rose had some technical questions for the staff and offered to coordinate after the meeting to keep the meeting on schedule. Her questions pertained to the TMO eligibility and funding minimum/maximum guidelines. Staff will post the updated guidebook on the NFRMPO website on Thursday.

## **Mobility Case Studies**

The first case study involves a Wellington caller who requires rides to physical therapy in Fort Collins twice a week. She is not sixty, so she cannot utilize the Senior Center Transportation Service to Fort Collins. The group discussed options for resolving this issue.

The second case study is a person who lives in Greeley and needs a ride to her doctor in Fort Collins. She is over sixty and does not have Medicaid. 60+Ride has a waitlist, and she is not in Via Mobility's service area. Taking Uber, Lyft, or zTrip is too expensive; she needs free or low-cost transportation options.

Excellent discussions from members on problem-solving options for staff to assist callers.

## **Wrap-Up + Round Table**

## **Announcements & Member Updates**

Loveland – Colt and Transfort are having open houses this upcoming Thursday in Loveland and Friday in Fort Collins to discuss the changes to the Flex Service (only). Colt is taking over the Loveland to Fort Collins portion of the service. Fort Collins will continue to run service to Boulder, but the hours will be modified.

Steve Teets mentioned the Spin program in Greeley is not working because the bikes are blocking the ADA ramps, so people with disabilities are struggling to get around them. I would like to see some training or educational classes offered to support the program's success. There is a need for more regulations, training, and education on where to leave bicycles. Steve Teets would like to have CDOT DTR provide an update on Bustang.

### **Upcoming Meetings:**

- A. Weld County Mobility Committee (WCMC): September 30<sup>th</sup>, 2025
- B. Larimer County Mobility Committee (LCMC): October 28<sup>th</sup>, 2025
- C. Northern Colorado Mobility Committee (NCMC): November 18<sup>th</sup>, 2025

NCMC adjourned the meeting at 3:38 p.m.

## 2026 Aspen Club & RideNoCo Transportation Fairs

**RideNoCo** and the **Aspen Club** are joining forces again to organize 3 Transportation Fairs in early 2026.

**Transportation Providers** will be able to have a free table at these events. The idea is to allow attendees to register and sign up for services on the spot or obtain information and ask questions.

**Other Providers:** Please inform your clients about this event, share transportation options, and encourage them to become Aspen Club members and sign up for their newsletter! (for those who are 50+)

### Dates and Locations:

- 1/26/26 – Greeley Active Adult Center
- 2/2/26 – Fort Collins Senior Center
- 2/16/26 – The Life Center Silver Maple Room | Loveland

Lisa will send an official invite to transportation providers later this year to reserve a table and provide registration information for the public who want to attend and learn more about their transportation options in their area! Also, please reach out if you are interested in participating.

## RideNoCo Updates - What's to Come in 2025 & Beyond

- **Mobility Management + Transportation Demand Management (TDM)**

- Creation of an extensive resource guide that can be printed and mailed to individuals who request it.
- RideNoCo is evolving into a regional TDM program focused on helping the region meet its transportation needs.
  - Expansion of DRCOG's *My Way to Go* & working on our first pilot school for the *Schoolpool* platform and continuing to talk with others about the program.

- **Expand Adoption of TDS**

- Expansion of TDS spec to additional agencies, including private, non-profit, and public transit providers in Northern Colorado and beyond.

- **Identify & Address Regional Transportation Gaps**

- Building upon the success of Via Mobility's expansion into Weld County to meet other known mobility gaps in communities such as Red Feather Lakes, Windsor/Severance, and rural portions of Larimer and Weld counties.

## 2025 Coordinated Plan Background

North Front Range Metropolitan Planning Organization  
Coordinated Public Transit/Human Services Transportation Plan  
First July 2017

The NFRMPO Coordinated Public Transit/Human Services Transportation Plan  
December 2013

- Strategic plan for Coordinated Transit (Mobility) in the region
- Mobility for older adults, individuals with disabilities, low-income persons, and underserved communities
- Updated every four years.
- Allows for projects to be funded by FTA \$5310 funds
  - FTA \$5310 Funds:** focus on older adults, individuals with disabilities, and low-income individuals
    - Example: RideNoCo program
- Sets up project priorities for mobility for the next 5 – 10 years
- Four Parts of the Plan:
  - Analyze existing conditions/options;
  - Evaluating socioeconomic and ridership data;
  - Identify mobility gaps; and
  - Strategize improvements

### Discussion – MyWayToGo Demonstration and Outreach Discussion

## MyWayToGo Demonstration and Outreach Discussion

34

34

## MyWayToGo Introduction

- Did you know the average Coloradan spends 1+ year stuck in traffic?
- *MyWayToGo's* trip-planning and tracking tool can help an individual find a carpool, vanpool, transit, bike, or pedestrian route to their destination.
- *MyWayToGo* is a program created initially by DRCOG to help employers and commuters find the right commute options at no cost by:
  - Helping to improve morale by finding better options for getting around the region
  - Taking advantage of sustainable transit subsidies
  - All while helping to reduce traffic congestion and air pollution.
- *MyWayToGo* has been brought up to our region by the NFRMPO, and our version of the program is called *RideNoCo*.
  - The City of Fort Collins has its version of the program called *Shift Your Ride*
  - The GoNoCo34 TMO will support employers and individuals along US 34 for the program.

35

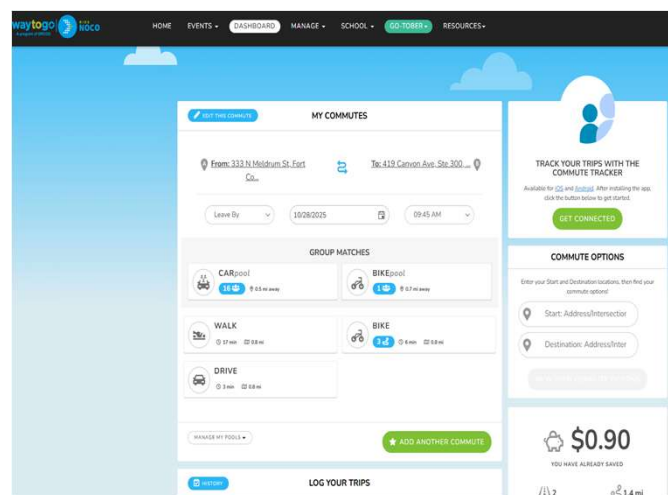

35

## MyWayToGo Information

### Information

- You can use Strava, Commute Tracker App, and MyWayToGo.org to track commute trips
- RideNoCo and VanGo website are linked in Resource Section
- Once an account is created, you can see where other carpools, vanpools, bike pools, and walk pools are, or you can start one, too
- Employers, organizations, groups, or neighborhoods can create their own networks for challenges, point programs, and incentives

36

36

## Employer Benefits

### For Employers

- *MyWaytoGo* helps to evaluate the best commute options for employees and allows employers to encourage their staff to leave their cars at home and commute creatively.
- All *MyWaytoGo* services are offered at no cost.
- Helps employers to:
  - gain an edge in the market by attracting and retaining quality employees.
  - reduce the need for mass parking.
  - become community leaders.
  - lose less money due to unforeseen employee delays.
- Help employees:
  - improve their health and be happier (both mental and physical)
  - Have more predictable travel times
- Tax benefits.
  - The federal tax code allows employers to reduce payroll taxes for qualified transit, train, vanpooling, and biking benefits. Learn more about these benefits from the IRS
  - *MyWaytoGo* can help employers take advantage of a state-wide tax credit of up to 50% for employer expenses related to transportation benefits for staff, called the *Colorado Clean Commute* program.

37

37

## Colorado Clean Commute

- *MyWaytoGo* can help organizations find new ways to save on transit programs.
- Colorado Clean Commute gives employers tools to expand sustainable commuting options while saving money.
  - *MyWaytoGo* helps employers qualify for the Colorado Alternative Transportation Tax Credit
- Colorado Alternative Transportation Tax Credit is a program that offers a 50% tax credit, up to \$125,000 annually, to organizations that provide alternative transportation options to their employees.
  - What Qualifies?
    - Transit Passes
    - Active Transportation Support (Biking/Walking Subsidies)
    - Ride-Sharing Programs or Guaranteed Ride Home Programs
    - E-Bike/Scooter Subscriptions
    - Administrative Expenses
- Organizations that do not file income tax returns must complete and submit Form DR 0990 for tax-exempt entities.

38

38

## MyWayToGo Feature: *SchoolPool* Tool

*SchoolPool* is a free carpooling program that connects families to share rides for their children to and from school and allows for coordinating transportation options like carpooling, walking, biking, or using public transit.

### Benefits:

- More time for kids to make friends and help with homework.
- Parents have more time for tasks.
- Strengthens the community.
- A secure system helps families connect.

### How to Use *SchoolPool*:

- Parents sign up on a secure website to connect with nearby families.
- Parents can register using their home intersection instead of their address.
- Information will only be shared with other families in the network (no third parties will ever see it).
- Visible information includes names, home location, and email addresses, and parents can optionally choose to share their child's grade, gender, phone number, and add comments for special requests.
- The service supports regular, part-time, and emergency trips.
- More families joining increases the chance of finding good matches.

39

39

## MyWayToGo Challenges

Different networks and the NFRMPO can create their own challenges, incentives, or point programs to encourage other modes of transportation.

### Challenge Example

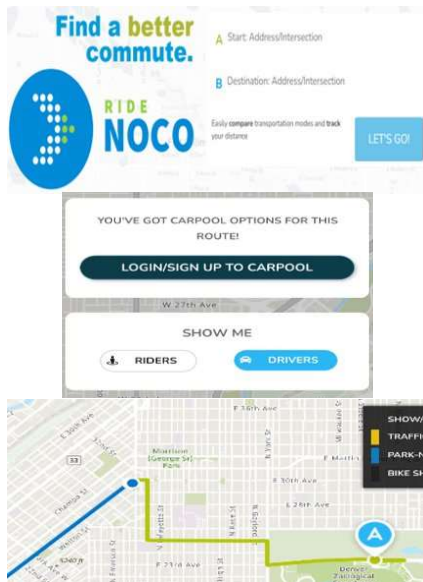

- DRCOG does the annual Go-Tober
- Each October, DRCOG, through MyWaytoGo, invites employers and individuals from across the Denver region to join the Go-Tober Challenge.
- By encouraging employees and individuals to use non-solo driving commute options during October, businesses, employers, employees, and individuals can enter to win engaging prizes and public recognition.

40

40

## MyWayToGo Steps for Signing Up

### Step 1

- Enter your start and end locations on *MyWayToGo.org* to find a way out of traffic.
- You'll see a list of transportation options, and you can compare costs and other data to make your choice.

### Step 2

- Now that you've found your way out of traffic, stay out of it by signing up for *MyWayToGo*.

### Step 3

- Now, plan your trips, which can be done once you're signed up.
- It's much easier to plan and track your trips, contact other carpoolers, and even compete in monthly challenges with other commuters through *MyWayToGo*.

41

41

## Demonstration Time

Now we will take some time to look at the website.

42

42

## Questions for the NCMC

- Any Suggestions, Questions, or Comments on MyWaytoGo?
  - Or on any of its features?
- What type of challenges, incentives, or point programs should we do?
  - Challenges recommended for the NFRMPO from the DRCOG team
- When should challenges be done for NFRMPO?
  - February is Winter Bike to Work Day
  - June is Summer Bike to Work Day
  - October is DRCOG's Go-Tober

## Discussion – Mobility Case Studies

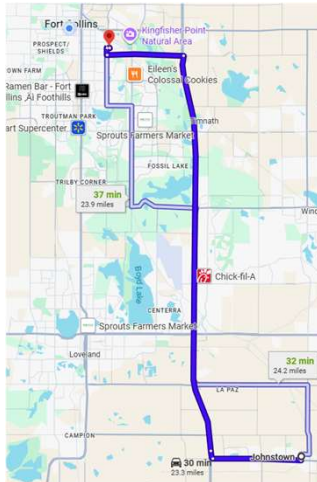

### Mobility Case Studies

**Aaron Hull | Mobility Planner**

44

44

## Discussion - Mobility Case Study #1

The caller, who lives in Johnstown, needs rides for medical appointments in Fort Collins and Loveland.

The individual is over 60 and uses a walker. The individual reached out to Via Mobility and was told they can get a ride to their destination, but not from it. The individual does not have transportation coverage through her insurance and needs free or low-cost transportation.

The individual has had difficulty in the past finding an available Uber or Lyft driver in the area.

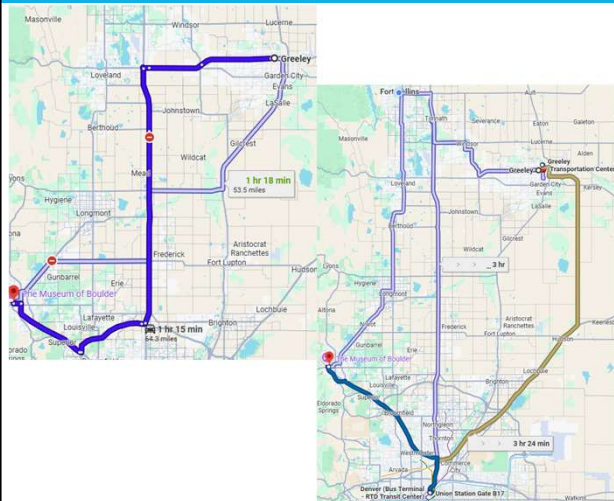

No transit routes could be created in Google Maps to show.

**Any ideas on how to resolve this issue?**

45

45

## Discussion - Mobility Case Study #2

The caller, who lives in Greeley, needs a ride to a medical procedure that requires an overnight stay in Boulder.

The individual is over 60, a veteran, uses a walker, and does not have Medicaid. The individual also asked whether there were any free or low-cost transportation options.

The individual has had difficulty in the past finding an available Uber or Lyft driver within that distance.

**Any ideas on how to resolve this issue?**
