Summary of the outcomes from the discussion on voting and scoring at the 8/12/26 meeting:

1. There was general consensus around reducing to 15 voting members that reflect the NFRMPO's Member Communities. This direction seemed to be supported by the acknowledgement/recognition of the importance of MPO Member Communities and that this reflects how TAC operates.
2. This leads to a new quorum of 7 (no longer 8)
3. Call for Projects SCORING is open to ALL/everyone to encourage conversation and the sharing of contextual expertise.
4. Only 15 voting Member Communities' scores are tabulated when making a recommendation to TAC.
5. Consider future collaborative effort to increase year-round participation by all 15 MPO Member Communities.
