4 Public Outreach
A. Public Involvement Plan

As part of the 2045 RTP process, the NFRMPO updated the Public Involvement Plan (PIP). The NFRMPO Planning Council adopted the 2019 PIP on March 7, 2019. The 2019 PIP builds on the successes and lessons learned from the 2015 PIP. Strategies from the 2019 PIP were incorporated into the development of the 2045 RTP. Application of these strategies are explained in the following sections.

Major updates to the 2019 PIP impacting the 2045 RTP process include:

- Environmental Justice (EJ) data was updated to the Census Block Group level, providing more neighborhood and demographic nuance;
- Improved outreach materials showing meeting dates and times, the planning process, and how to include the public; and
- Evaluation of the public outreach process, the data collected, and how it is incorporated into the NFRMPO’s planning process.

Application of the strategies explained in the 2019 PIP to the 2045 RTP are explored below.

B. Process

As outlined in the 2019 PIP, the public was notified of and involved in the development of the Plan through:

- Posting on the NFRMPO’s website, Twitter, and blog;
- Online and in-person surveys;
- Attendance and presentations at local meetings and events throughout the region;
- Publication of events, dates, and updates in the quarterly On the Move Newsletter;
- Creation of the 2045 RTP website; and
- Creation of a Community Remarks website.

The NFRMPO used a variety of online tools to reach out to the public, ensuring up-to-date and interactive tools were made available.

- Events and meetings were posted as they were scheduled and were tweeted on the NFRMPO’s Twitter account (@NFRMPO).
- The NFRMPO posted draft chapters, meeting schedules, and contact information on its website. The website was updated often to ensure the most current information was available.
- The Community Remarks site allowed the public to provide comments on a Google Maps-based website. The tool allowed users to “vote up” and “vote down” comments, which streamlined comments and provided additional interactivity. Those who “vote down” a comment were required to explain their dislike or disapproval, allowing additional input which could be
incorporated into the 2040 RTP.

The NFRMPO used two surveys to distinguish the needs of the region in the existing and future transportation systems. Surveys provided staff a direct understanding of regional transportation issues; where, how, and why people commute; and what modes of transportation are impacted by congestion or are used most often.

The first survey, open through summer 2018, engaged the public in where residents live, work, commute, and what their overall concerns were. The second survey, available in winter and spring 2019, requested input on scenarios to be included in the 2045 RTP.

Both surveys took advantage of the partnerships the NFRMPO has formed with community groups. Versions of each survey were sent to the Larimer County and Weld County Mobility Committees, VanGo™ vanpoolers, On the Move recipients, members of the Northern Colorado (NoCo) Bike & Ped Collaborative, and multiple senior groups. Paper copies of the survey and business cards with the survey link were also distributed at the events and meetings staff attended.

Staff coordinated public outreach at multiple events and meetings throughout summer 2019. To reach a wide audience, the NFRMPO made efforts to attend a diverse group of meetings within the region. When possible, the NFRMPO worked with other agencies and organizations. The events mixed presentations, staffed tables, and face-to-face interactions to both inform the public about the 2045 RTP process and obtain feedback. At these meetings, staff discussed regional transportation issues with the public and community groups.

Public comment periods were provided for the FY2020-2023 Transportation Improvement Program (TIP), the 2019 PIP, and the 2045 RTP. The 2019 PIP was released for 45 days, while the 2019 TIP and 2045 RTP were released for 30 days. The 2045 Regional Transit Element (RTE) was released for 30 days and information was incorporated into the 2045 RTP.
C. Limited English Proficiency (LEP) Populations

The NFRMPO updated its LEP Plan as part of the update to the Title VI Plan and 2019 PIP. Spanish is spoken by 10.8 percent of the residents in the NFRMPO region. When possible, the NFRMPO translates documents into Spanish or works with partners during the outreach process to ensure the 2045 RTP reflects the needs and priorities of all residents.

NFRMPO staff worked with local communities and attended events and meetings where all residents attended. Evans, Fort Collins, Garden City, Greeley, Johnstown, LaSalle, Loveland, and Windsor, all contain at least one Census Tract with an LEP population. NFRMPO staff attended community events in all but one location. In this location, NFRMPO staff worked with the Citizens Transportation Advisory Board (CTAB) to discuss local priorities and need.

D. Integration

NFRMPO staff integrated public comment into the 2045 RTP. Many of the projects recommended by the public, including the Front Range Passenger Rail project, were not fiscally constrained. The interest, however, was acknowledged and included as a scenario project. Input from stakeholders and partner agencies ensured information within the document were current. It is expected the information collected as part of this plan will continue to be integrated into the NFRMPO’s planning process and future planning efforts.

E. Materials

On the following pages are outreach materials used throughout the 2045 RTP process:

- 2045 RTP Presentation
- 2045 RTP Fact Sheet
- 2045 RTP Survey

2045 RTP
The NFRMPO Region Today

In 2015, the NFRMPO region had…
- 483,000 residents
- 284,000 jobs
- 50 Billion vehicle miles traveled (VMT)
- 4 Million Transit Trips
- 3 Million users on the Regional Non-Motorized Corridors

Future in the NFRMPO region

By 2045, the NFRMPO region is estimated to have…
- 883,000 residents (+82.8% over 2015)
- 473,000 jobs (+66.5% over 2015)

Estimates provided by the Department of Local Affairs.

Transportation impacts of these new residents and jobs will be modeled using the NFRMPO’s Regional Travel Demand Model.

---

**Call for Projects**
- Communities apply to the NFRMPO for federal and state funding
- Competitive project selection process
- Must move region toward achieving performance measures and targets
- Underway – applications due December 21, 2018

**Transportation Improvement Program**
- Four-year transportation program
- Includes federal- and state-funded transportation projects
- Updated annually
- Must show Air Quality Conformity
- Environmental Justice

**Regional Transportation Plan**
- 20-year+ transportation program
- Incorporates TIP projects and regionally-significant projects
- Must be fiscally-constrained
- Must show Air Quality Conformity

2045 RTP
How much do transportation projects cost?

- **US34 Expansion (Denver Ave. to Boyd Lake Ave. / 1.25 miles):**
  $2.24 Million per mile or $2.8 Million overall (Loveland)

- **I-25 Expansion (SH14 to SH402 / 15 miles):**
  $20.1 Million per mile or $302 Million overall

- **Long View Trail (57th Street to Fossil Creek Trail / 4.4 miles):**
  $880k per mile or $3.9 Million overall (Fort Collins/Loveland)

- **Greeley Comprehensive Signal Timing (116 signals + system):**
  $4,525 per signal or $525k overall

- **MAX BRT (Fort Collins / 6 miles):**
  $14.0 Million per mile or $84 Million overall

- **Commuter rail (Fort Collins to Denver / 43 miles):**
  $27.9 Million per mile or $1.2 Billion overall

The RTP must be fiscally constrained. Knowing the costs of some regional projects, how would you allot $2 Billion in estimated funding?

- **Roadway projects** (repaving, maintenance, expansion)
- **Transit** (operating, capital, new routes)
- **Bike/ped** (trails, sidewalks, bike lanes, ADA, counters)
- **Freight** (truck parking, technology, quiet zones)
- **Technology** (ITS and signal upgrades, VMS, RoadX)

In 2017, the region is...
- 676 square miles
- 506,000 residents
- 284,000 jobs

Annually...
- 3 million regional trail trips
- 4 million transit trips
- 50 billion vehicle miles traveled

In 2045, the region has...
- 884,000 residents
- 473,000 jobs

The NFRMPO will run the 2045 Regional Travel Demand Model to estimate future volumes.

- Long range transportation plan and framework for the North Front Range MPO region
- Analyzes existing conditions of the transportation system and demographics
- Sets a vision for the transportation system over the next two decades
- Provides short-term and long-term policies, strategies, and actions
- Guided by public input, performance-based planning, land use and transportation modeling
- Updated every four years
Recently awarded transportation funding (FFY2020-2023)

- Congestion Mitigation/ Air Quality (CMAQ)
  - $18,372,654
- Surface Transportation Block Grant (STBG)
  - $14,680,805
- Transportation Alternatives (TA)
  - $1,058,075

Expected need through 2045

- Roadways
  - TBD
- Transit
  - $32,840,282
- Non-Motorized
  - $176,273,200

Let us know how you want the transportation system to look:

- Outreach
- Data collection
- Scenario Planning
- Public comment
